# MESSAGES:

## From Our President

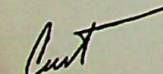

This double issue, numbers six and seven of the *Canadian-American Journal*, will put us up to date on our publications, and we should be able to keep it on schedule in the future.

I believe that the last two years have turned our organization around and that we are much more viable than we have been in the past. With our new name **French/Canadian/Metis Genealogical Society** (formerly NorthWest Territory, Canadian & French Heritage Center) and our streamlined constitution we have put new life into our group, but we can still use more ACTIVE members.

Please, consider serving on a committee and maybe eventually running for an office. We need volunteers for our publications and other committees as well as ideas for articles for both the *Journal* and the *Cousins et Cousines* Newsletter.

Our quarterly meetings have had some excellent programs and speakers and have been well attended, but we can also use your input for future program suggestions.

The bottom line is that the more active YOU become, the better our organization will be.

  
Curt  
(Curtis Benoit Londroche)

## From the Editor

Beginning a year and a half ago we asked members to submit the names and basic data of their eight great-grandparents. Our thinking was that—since many of our ancestors came from Canada, and we have a French-Canadian orientation—such a data base might help other members find an ancestor and, perhaps, find a new *cousins* or *cousines*.

We had no expectations of the numbers of participants. Much to our surprise the response was wonderful—almost 14 percent of the membership responded! This was too much data to publish in the *Cousins et Cousines* Newsletter. In fact it was too much to publish in a single issue of the *Journal*. So, rather than dividing the data between two separate issues we decided to combine them and publish a double issue.

A special thanks goes to Joan Davy who created this database from the many and varied forms sent in by our members. She then accepted the onerous task of proofreading the final draft.

However, should you find an error or an omission in the data send the correction to me. I have the final responsibility for accuracy of this publication.

If you did not submit an entry and would like to, or if there are questions regarding these data either write to me c/o the MGS library or e-mail me at <popchom@msn.com>

Enjoy!

# OUR GREAT-GRANDPARENTS

## INTRODUCTION

The data in this publication is presented as our members submitted it. Where there appeared to be an error and we were not able to contact the member we noted that with [*sic*]. When we receive corrected data we will print an errata sheet and include it in the next issue of *Cousins et Cousines*.

As the contributions were received we pondered how best to organize them and decided to simply assign an index number to each contributor and to make researching the data easy by including indexes at several levels. We also decided to place the indexes at the front of the publication rather than after the data. This may up-end some members' expectations, who, out of habit perhaps, look for indexes at the back of the book. There are three indexes.

## CONTRIBUTOR INDEXES

The first index is a list of the contributors in numerical sequence as they appear in the data section. The second is a list of the contributors in alphabetical sequence also with their index number. Thus if you seek data of a specific contributor or ancestor the index number is the key to finding it.

## ANCESTOR NAME INDEX

The third index is a list of ancestors in surname sequence, sorted alphabetically, and including the index number of the contributor. Many ancestor surnames had *dit* names, birth names and hyphenated names. Each of these names was separately listed with a reference not only to the contributor's index number but also to the full ancestor's name, thus making it easier to see how that specific name fit with the full name. Alternate spellings of names were not listed separately if the first four characters of the alternate name were the same. If the alternate spelling placed the name in a different location in the list it was entered separately.

## OUR ANCESTORS DATABASE

This is the main body and main purpose of this publication. Each contributor and their address is listed first in their index number sequence. Some contributors did not list their addresses. If a reader wishes to contact one of those contributors please send your letter to the contributor enclosed in an un-addressed stamped envelop and we will forward it to the member. Note that some e-mail addresses may not be current.

The MGS style used to show e-mail and internet addresses use angle brackets < > to denote their beginning and ending characters. These are NOT part of the address and do not include them when sending someone a message.

Following the contributor's information are the great-grandparents headed by the father and then his spouse. If he had more than one spouse they are numbered appropriately. For each male ancestor there follows the birth date and place, death date and place, and marriage date and place. Each spouse lists her birth name (usually) birth date and place, and death date and place.

## ABBREVIATIONS

Abbreviations used are: b = birth date; d = death date; m = marriage date; n/a = data not available or not known. Place names are not abbreviated except state names which use the two-digit postal codes. Foreign places are spelled out with their respective countries except for well known Canadian Cities and provinces.

## A PERSONAL NOTE

The members of the editorial staff thank all who submitted their ancestor's data and hope some readers will find it useful in their research. And perhaps some will find a previously not yet met cousin or two. Let us know if you do.

**SPECIAL INTEREST GROUPS WITHIN THE F/C/MGS**

**ACADIANS**— are best described as French colonists that originally settled primarily in what is now Nova Scotia in the years 1604 to 1713. Our collection includes materials to help those interested in tracing their Acadian ancestors.

**AMERICAN INDIAN**— records deal mainly with those people native to the western hemisphere before the arrival of the European colonists. The Center has been collecting information and records on this group of people for many years.

**CANADIANS NOT FRENCH**— This group includes all those Canadians not covered by the other interest groups. This part of our collection is the fastest growing and with continued member support we will continue to enhance the collection as funds allow.

**FRENCH GLOBAL**— This group covers all French other than those in Canada and the United States. Our collection is limited, however, more and more is being published. This group is in need of an enthusiastic person who can make recommendations for purchases.

**FRENCH CANADIANS**— French Canadians have been active since that first round table. It has been largely the efforts of the French Canadians that have amassed the collection of the Center. When Msgr. Cyprien Tanguay gathered together the Catholic Church records from the small historic parishes along the St. Lawrence River in Quebec in the nineteenth century, he started a tradition of family consciousness that carries down to the present day among persons of Quebecois descent, whether they live in Quebec or in other parts of the world. Many books of genealogy, registers of baptisms, marriages, burials, and other historical documents published since Tanguay's time have made French-Canadian families some of the best researched in the world. The *French/Canadian/Metis Genealogical Society* (formerly *NorthWest Territory Canadian & French Heritage Center*) is simply one of a long list of societies founded to assist persons of French-Canadian descent in the researching of their ancestors.

**HUGUENOTS**— are most easily described as French Protestants. Some of our French Canadian members may find that their ancestor was a Protestant in France, and converted to Catholicism by the Jesuits after their arrival in New France. Our Huguenot collection is small but useful. The collection is expanding as more publications are found.

**METIS(SE)**— records are related to those covering the American Indian. The word Metis or Metisse signifies that the individual was a person who descended from Native American and white or black parents. During the early years of the fur trade, the traders did not have access to women of their race and cohabited with the native Indian women. Many fur traders married Indian women and had children with them. These children were called Metis or mixed bloods. Many of these mixed blood children remained in the woods and became trappers themselves helping the white fur traders. Others went to the white man's school and then returned to work at the fur trading posts.
