There is fairly good sleighing in this vicinity and the jobbers have commenced to haul cordwood to the track for shipment.

Mr. and Mrs. Edw. Ryan, who have been visiting Sagola friends for the past week, left last Tuesday night for their home in Manistique.

The Sagola Lumber company sold two lots in the new addition to the village this week. The purchasers will erect dwellings on them in the spring.

Now that the hunting season is over, look out for the game wardens. During the open season many hunters were running deer with dogs, but not a game warden was to be seen in this vicinity.

There is talk of a new hotel being built at Sagola in the near future. The site spoken of is on the corner opposite the store. A larger hotel is much needed, as the present one has insufficient room for the accomodation of the guests.

CHIPS FROM CHANNING.

Mrs. Mary Richard, who has been in poor health for some time, was taken to St. George's hospital at Iron Mountain last Tuesday for treatment.

The social dance at the St. Paul Hotel last Friday night was well attended. The

music was furnished by Michand's orchestra, of Florence, and gave good satisfaction.

The log shipments are increasing now that cold weather has come. About forty cars of logs per day are being received from the Ontonagon branch, thirty for Oconto and ten for Sagola.

The last ore train for Escanaba for this season passed through Channing to-day. The ore was from Republic. The Tobin mine at Crystal Falls made the last shipment for the season yesterday.

The train crew on the Copper Range railroad played a good joke on the agent at Rockland and Conductor Allen and his crew on the St. Paul last week Thursday. When the Copper Range train came from Ontonagon the engineer reported that there was a wounded buck near the track about a mile from Rockland, and Allen, anxious to secure the deer, cut the engine loose from his train and with his brakeman, P. L. Vincent, and J. H. Kohne, agent at Rockland, all got on the engine and ran down to where the deer was reported. They soon came in sight of the deer, which was a fine specimen with large antlers. The buck had evidently been wounded in the back and was sitting on his haunches in the snow and held his head high in the air in defiance of the new-comers. The engine was brought to a stop, Engineer Jas. Hart took the gun and fired three shots at the wounded deer, missing him each time. The brakeman, P. L. Vincent, also tried three shots, and in his excitement also missed the deer. Agent Kohne then said to give him the gun and he would kill the deer. He shot twice and the second shot hit the deer in the head, but did not seem to hurt him any, as he did not move, and still maintained his defiant position. The men then decided to investigate and found on close inspection that the deer had been dead about a month and the crew of the Copper Range train had placed the carcass in a sitting position, propping the head up with a forked stick. The St. Paul crew took the joke in good humor and are now devising some means to get even.

QUINNESEC ITEMS.

Mr. White, of St. Louis, Mo., is at present engaged in cutting Christmas trees for shipment to that city.

Daniel McAllister, of Marinette, was here last Friday looking after his logging crews. He had a number of sidings staked out and expects to ship the most of his logs by rail over the Wisconsin & Michigan.

Lorimer & Gallagher, the contractors who are building the Nathan extension of the Wisconsin & Michigan road, are rushing the work as fast as possible and now expect to finish operations in about two weeks. The work is under the supervision of P. H. Kilboy, who is a hustler. The bridge work is about finished and the structures will be ready for trains to run over in a week or ten days. The crew of negroes employed on the bridges had some misunderstanding with the foreman and left for Chicago, which resulted in a suspension of operations for several days. ceiving medical treatment. She is very much improved in health.

About twenty-five young people gave a birthday surprise party last Thursday in honor of Jos. Ponkratz. Cards and refreshments were the order of the evening.

A. W. Wilson and Geo. Douglas have taken a contract to furnish 400 cords of pulp-wood to the paper mill. They have started a camp near Summit and will commence cutting the wood at once.

Wm. Huston, an old man who has been a resident of Niagara for the past three years and a county charge for the past two years, became so feeble that he was taken to Marinette last Friday to be cared for at the hospital. Mr. Huston was born in Canada and has spent his life in the lumber woods of Canada and Michigan.

Dr. R. T. Farrand returned last Thursday from a hunting trip in the vicinity of Eagle River, Wis. The Doctor says he killed a large buck, but owing to some misunderstanding in regard to transporting the deer through Michigan, on account of the express company not having an office at Niagara and could only take the deer as far as Quinnesec, the express messenger on the cordwood limited refused to take the deer, and it was left at Watersmeet. All the Doctor has to show for his deer is a license with one coupon gone.

Leo LeRoy and Ellis Champagne, two young men who work in the finishing room at the paper mill, were driving along the Sand Portage road Thanksgiving day and shot a deer from the rig. They jumped out and cut its throat and in doing so got some blood on their hands. Being desirous of washing their hands, they drove one and a half miles to Timm's Lake for that purpose and in their excitement over killing the deer did not notice that they crossed Pembina Creek, less than 200 feet from where they killed the deer. The boys are setting up the cigars to square the joke.

P. B. Goodyear is accused of having shot a deer last Sunday, but there are many conflicting stories in regard to the shooting. Pat claims that the deer, which, by the way, was a large buck, weighing over 300 pounds, was about to run over him and he was forced to shoot it in self-defense. There is another story, however, told by a young man by the name of

IRON MOUNTAIN

Population, 3,251. (U. S. Census 1920). Dating its settlement from 1879 and incorporated as a city in 1887, is located on the C. & N. W. and C., M. & St. P. Rys, and is the northern terminal of the Wisconsin and Michigan R. R. in Dickinson county, of which it is the seat of justice, 72 miles by rail northwest of Menominee and 208 from Milwaukee.

Iron Mountain is surrounded by a magnificent belt of farming lands with which it is connected by a system of stone roads second to none—clay loam lands capable of the highest cultivation—none better for apples, cherries, pears, strawberries, currants, raspberries, etc., and none so good for grains, for potatoes and other root crops, unexcelled as a dairy country—and there is a cash market for everything produced.

Iron Mountain might well be designated the "City of Water Power." Within a radius of thirty miles of the city hall there are 30 powers capable of producing not less than 75,000 horsepower and all can be cheaply improved. One power operates the mines of the Oliver Iron Mining Co., a second a \$1,000,000 paper mill plant, a third the mines of the Penn Iron Mining Co., and the fourth, estimated at 8,000 horsepower, is now being improved by the Peninsular Power Co., a commercial corporation, at a cost of \$250,000.

Iron Mountain is a particularly attractive seat for woodenware factories of all kinds. In the opinion of competent judges, the district immediately tributary to Iron Mountain contains conservatively not less than 800,000,000 feet of standing timber, mainly hardwoods.

This is the location of the famous Chapin Iron Mine, the largest and best in the Upper Peninsula, producing a very rich hematite ore, from which is made the best Bessemer iron and steel. The mine employs about 1,000 men and is worked at a depth of 1,500 to 2,500 feet. The plant is of the most modern description, and immense hydraulic machinery costing \$500,000, has been constructed to convey compressed air into the mine and is used for operating all

machinery connected with the mine. There are other iron mines surrounding the city and with a saw mill, cement works, a blast furnace, a chemical plant and a Ford body plant are the principal industries of the city.

Iron Mountain has not only the finest public school plant in Michigan, but population considered, in the country. There is now in course of erection a new stone high school building, estimated to cost \$150,000, containing all that is modern. There is a second granite high school building erected at a cost of \$75,000. Also, an excellent and well equipped manual training school, a domestic school, a school for the deaf and dumb, five solid brick and two frame grade schools, and a public library costing \$20,000. Also, a first-class business college having an extended reputation, the graduates being eagerly sought by leading commercial concerns.

Iron Mountain is a city of churches, containing 14—eight brick structures and six frame. All have permanent pastors and are live organizations. The Catholic denomination has three, Methodist two, Presbyterian, Episcopalian, Baptist, Swedish Mission, Swedish Methodist, Swedish Lutheran, Swedish Baptist, German Lutheran and Jewish one each.

Iron Mountain has four banks with capital and surplus of \$675,000 and deposits of \$2,000,000; also a daily newspaper, the Daily Tribune Gazette, and an English weekly, the Iron Mountain Press.

Iron Mountain has a public park with many beautiful lake resorts in the immediate vicinity, three lakes in the city limits.

Iron Mountain has an electric company supplying a day and night power current; water works with water unexcelled anywhere; a gas plant and telephone connection with the world.

Iron Mountain has a sewer system and now enjoys perfect sanitary conditions. There is a daily collection of garbage.

Iron Mountain has many advantages socially—all the leading fraternal organizations are represented, there are many literary and social societies and the inhabitants are ever ready to wel-

come the stranger.

Iron Mountain has good hotels, several houses of entertainment and is surrounded by lake resorts where summer homes are maintained, a golf park, baseball park and the usual list of amusements.

Iron Mountain is the county seat of Dickinson county—a county with no indebtedness—having unusually fine buildings.

Iron Mountain can offer you cheap lands for factories and for homes with an abundance of intelligent labor.

Iron Mountain has a handsome brownstone city hall, a paid fire department of two companies, an efficient police force, many fine stores, beautiful homes, excellent streets, and a progressive citizenship.

The city has no bonded indebtedness. Telephone, telegraph and express connection. Money order office. Joseph B. Eslick, mayor. Hugh McLaughlin, postmaster.

LOISELLE/RIVEST FRENCH CANADIAN MARRIAGE INDEXES QUEBEC

GENEALOGICAL LIBRARY, THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS
SALT LAKE CITY, UTAH

There are two important indexes available for Quebec marriages. One is the Loiselles Marriage Index, which covers the years 1642 to 1963. The other is the Rivest Marriage Index, which covers the years 1670 to 1972. This guide will instruct you in using these indexes.

A list of abbreviations used for first names and localities and a list of all parishes that were indexed (with beginning and ending years) are filmed at the beginning of each reel of the index.

Please note that only about 85% of the marriages are covered before 1900 and much less after 1900, including some non-Catholic marriages.

COMMON TERMS AND ABBREVIATIONS USED

de = of
def. or deft = defunt = deceased (masculine)
defunte = deceased (feminine)
et = and
feu = late (deceased)
fille = daughter
fils = son
inconnu(e) = surname not known
illégitime = illegitimate
indien(ne) = Indian masculine (feminine)
M = majeur = of age (No period follows M)
m = mineur = minor
sauvagesse = savage (feminine) (Indian)
sic = as shown in original document
St = Saint = Saint (masculine)
Ste = Sainte = Saint (feminine)
vf = veuf = widower
ve or vve = veufve = widow

Information Found in the Index

Each entry gives the names of the bride and the groom and the date and parish of the marriage. If the bride or the groom is not widowed the entry will also record the names of his (her) parents.

If either the bride or the groom is widowed the record of the marriage will indicate the name of the previous spouse. To find the names of the parents of a widow(er) you will need to find the previous marriage.

If either parent of the bride or groom is deceased this is usually indicated in the index.

If the parents of either spouse were married in a parish other than the one in which their child is married, the index will usually indicate the parish of the parents' marriage.

THE LOISELLE MARRIAGE INDEX

Years and Localities Indexed

The Loiselles Marriage Index, covering from 1642 to 1963, is an index of over one million marriage records in Quebec (520 parishes); Madawaska County, New Brunswick (6 parishes); and Manchester, Hillsboro, New Hampshire (2 parishes).

Organization of the Index

The index lists both the brides and the grooms alphabetically. Most of the entries are typewritten.

How to Search for Names

The alphabetical order of the cards is in fairly good order, but the whole group of that surname should be searched if your name is not located at first. For example, you may have a groom named "Pierre Lessard." If you searched for that name but did not locate it, you should search through the whole surname group and may find the marriage with the groom's name as "François Pierre Lessard." The name at the time of the marriage may not be exactly the same as at the time of birth or in later years of that person's life. NOTE: For some surnames there can be two or more groups of that surname,

LOISELLE/RIVEST FRENCH CANADIAN MARRIAGE INDEXES QUEBEC

GENEALOGICAL LIBRARY, THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS
SALT LAKE CITY, UTAH

which follow successively. For example, in the index listing, film number 543,703 ends with "Dubeau, Zoé" and the next film begins with "Dubeau, Abraham."

Be sure to check any variations of the surname. For example, for the surname "Villeneuve" there is an earlier variation "Amyot," so the two surnames would need to be checked.

How to Interpret Dates Used

10-5-1710 means 10 May 1710, not October 5, 1710

In this card file, as in most French or French-Canadian records, the day is listed first, then the month and year.

SOCIETY NOTES AND THE EDITOR'S CORNER

Once again a new year and a new volume of *Dickinson Diggings* begins -- Volume 15! And with Volume 15 comes a new look, as more and more of this quarterly is prepared on a computer. Please bear with me as I learn more and more about how to master this process. Hopefully, you will find it easy to read and more pleasing to the eye.

I mentioned the genealogical computer program called *Reunions* in the last editor's corner, and since that time I continued to input my family genealogical data into that vast database from my files in the file cabinet in my basement office. It is amazing how easily changes can be made, families can be linked and collateral lines can be incorporated into this program. I actually am amazed at how much additional information I had in my genealogical files which was really never formally added to my family group sheets and pedigree charts. As you can easily see, I am a convert.

It's also been exciting for me to get back to doing my own genealogy. I really haven't found time to work on my family tree for years due to other commitments, including publishing this quarterly. I can already see that preparing the pages for *Dickinson Diggings* on the computer will allow me more time to work on my own genealogical research. For those of you who are saying "I told you so," I plead no contest.

Pitcher Walter Weber and two unidentified teammates posed in their Iron Mountain uniforms at a photographer's studio in about 1884. Not the "I.M." on their shirts and the catcher's mitt and chest protector. In late May, 1894, *The Range-Tribune* noted Weber had been offered a position with a Chicago baseball team. The caption for this photograph in the diamond jubilee edition (July 2, 1954) of *The Iron Mountain News* stated Weber played for the Chicago White Sox. [From the collection of Gene Derwinski]

NEWS FROM AROUND THE COUNTY

EARLY CONTEMPORARY ACCOUNTS FROM THE IRON MOUNTAIN PRESS (1896 - 1920)

Miss Kitty Holmes, of Quinnesec, visited her sister, Mrs. Chas. A. Sommers, last Sunday.

Arrangements are being made to maintain a skating rink at some point on the Menominee river near the village this winter.

The Kimberly & Clark company is placing a large storage tank in their acid plant. The capacity of the tank is about 5,000 gallons.

It has been announced that Miss Laura Giroux, daughter of Dr. J. R. Giroux, and Edward Reis are to be married on Wednesday, January eighteenth, at St. Anthony's church.

Miss Mable Wood and Herbert Goslin were married last Saturday at the home of the bride's parents, Mr. and Mrs. Addison Wood. The ceremony was performed by Rev. A. W. Trigg.

The ladies of the Methodist church will hold a rummage sale on Friday and Saturday, the 16th and 17th of this month. The proceeds of the sale to be used for the benefit of the church.

Ed. Hayes left his horse and buggy in front of Goodyear's blacksmith shop last week Tuesday, while he went inside for a few minutes, and some one stole the rig and drove out near Shallman's camp, at Summit. The rig was found next morning near one of the skidways, where it had been all night, and the horse was nearly frozen. Three woodsmen are suspected of taking the rig.

Miss Helen Verplanck, principal of the public school, is making arrangements for a musical intertainment, to be given in the Kindergarten department, on Friday and Saturday evenings, the 16th and 17th of this month. The opera to be produced is "Ali Baba, and the Forty Thieves." The following is the caste:

- Ali Baba Fred LaValley.
- Cassim Perry Hatton.
- Cogia Hassan Archie Wood.
- Abon Fisticuffs John McAnulty.
- Abdallah George Ruelle.
- Amina Marion Mason.
- Mrs. Cassim Blanche Cayo.
- Morgiana May Berg.

The chorus will be made up of other members of the school. Miss Verplanck is giving her personal attention to the drilling of those taking part in the opera and ex-

pects to make the entertainment a grand success.

QUINNESEC ITEMS.

Jas. McGraw received \$900 last week from his mother's estate at Washington, D. C.

The approach to the Cundy bridge on the Michigan side of the river is completed and the rails for the train cars have been laid across the bridge to the Wisconsin side. Contractor Fredeen has ordered ten new cars and expects them this week. As soon as they arrive he will proceed to fill the approach on that side of the river.

Jos. Marchand, who has been a resident of Quinnesec for the past twenty years, died last Saturday morning of cancer of the throat, at the residence of his son-in-law, Chas. Benson. The deceased was sixty years of age and had been a sufferer from the disease for the past four years. The funeral was held from the Catholic church last Monday morning.

The work of repairing the break in the retaining wall at the Cundy bridge is in progress this week. Holes have been drilled through the wall and eye-bolts inserted which will be anchored to piles driven in the ground on the land side of the wall. This, it is thought, will prevent the wall from giving away under the pressure of the dirt used in filling the approach.

FAITHORN FACTS.

Miles Theisen, aged forty years, formerly of Marinette, committed suicide by hanging here last Monday. He had his jaw badly fractured recently in an accident, and had to be fed through a tube. Slow recovery caused despondency, which resulted in suicide.

Clarence Harter, son of Mr. and Mrs. Geo. Harter, was married last week Wednesday to Miss Josie Fritz, of Menominee. The marriage was solemnized by Rev. Rutzen, pastor of the German Lutheran church, in that city. The happy couple left the same evening for St. Louis on their wedding tour. It has been known for some time that Mr. Harter and Miss Fritz were to be married this winter, but the exact date of the event had been kept a secret, and the announcement of their marriage was a partial surprise to the friends of the young couple, as it was not expected to take place until after the holidays. Mr. Harter and Miss Fritz were well-known in Faithorn and have a large circle of friends who wish them a long, happy life.

RANDVILLE REPORTS.

Miss Cassie Wilbur has gone to Sagola for the winter.

Miss Susie Wilbur returned last Friday from a week's visit with friends at Iron Mountain.

H. Knaff, who has been acting agent for Mr. Wallace during his absence, will go to Amberg next week to relieve the agent at that station for a short time.

C. G. Wallace is expected to return next Tuesday from an extended visit with his parents at Tomah, Wis., and will then resume his duties as station agent.

Calvin McGaughey expects to branch out in the chicken industry next spring. He now has over 200 hens and will increase the number to 1,000 next year.

The pile-dryer crew arrived last Tuesday morning to drive the piles for the support of the abutments for the new railroad bridge across the Sturgeon river.

IRON MOUNTAIN

Population, 12,740. Dating its settlement from 1879 and incorporated as a city in 1887, is located on the C. & N. W. and C. M. & St. P. Rys., and is the northern terminal of the Wisconsin and Michigan R. R., in Dickinson county, of which it is the seat of justice, 72 miles by rail northwest of Menominee and 203 from Milwaukee. The M. H. & S. Ste. M. Ry., which is one of the most direct routes from the east, is 9 miles distant.

Iron Mountain is surrounded by a magnificent belt of farming lands with which it is connected by a system of stone roads second to none—clay loam lands capable of the highest cultivation—none better for apples, cherries, pears, strawberries, currants, raspberries, etc., and none so good for grains for potatoes and other root crops, unexcelled as a dairy country—and there is a cash market for everything produced.

Iron Mountain might well be designated the "City of Water Powers." Within a radius of thirty miles of the city hall there are 30 powers capable of producing not less than 75,000 horsepower and all can be cheaply improved. One power operates the mines of the Oliver Iron Mining Co., a second a \$1,000,000 paper mill plant, a third the mines of the Penn Iron Mining Co. In addition the Peninsular Power Co., a commercial corporation has 3 units harnessed total-

ling 22,000 h.p. This company supplies power and lights to mines and communities within a radius of 40 miles.

Iron Mountain is a particularly attractive seat for woodenware factories of all kinds. In the opinion of competent judges, the district immediately tributary to Iron Mountain contains conservatively not less than 900,000,000 feet of standing timber, mainly hardwoods. This is the location of the famous Chapin Iron Mine, the largest and best in the Upper Peninsula, producing a very rich hematite ore, from which is made the best Bessemer iron and steel. The mine employs about 1,000 men and is worked at a depth of 1,500 to 2,500 feet. The plant is of the most modern description, and immense hydraulic machinery costing \$500,000 has been constructed to convey compressed air into the mine and is used for operating all machinery connected with the mine. There are other mines surrounding the city. In addition, The VonPlaten-Fox Co., is operating a large saw mill. A blast furnace and chemical plant are under organization. This city is growing rapidly since the Michigan Iron, Land & Lumber Co. started construction on a large saw mill and body plant units in this vicinity. To date one of the best equipped and most modern saw mills in the country has been constructed with a capacity of 275,000 ft. of hardwood lumber in a day. One unit of the body plant is being operated and another unit is under construction. Machinery is being installed in these body plant units as rapidly as possible.

Iron Mountain has not only the finest public school plant in Michigan, but population considered in the country. There is a new stone high school building, estimated to cost \$150,000, containing all that is modern. There is a second granite high school building erected at a cost of \$75,000. Also, an excellent and well equipped manual training school, a domestic school, a school for the deaf and dumb, five solid brick and two frame grade schools, and a public library costing \$20,000. Also, a first-class business college having an extended reputation, the graduates being eagerly sought by leading commercial concerns.

Iron Mountain is a city of churches, containing 14—eight brick structures and six frame. All have permanent pastors and are live organizations. The Catholic denomination has three, Methodist two, Presbyterian, Episcopalian, Baptist, Swedish Mission, Swedish Methodist, Swedish Lutheran, Swedish Baptist, German Lutheran, Christian Science and Jewish one each.

Iron Mountain has four banks with capital and surplus of \$675,000 and deposits of \$5,000,000.

Iron Mountain has a public park with many beautiful lake resorts in the immediate vicinity, three lakes in the city limits.

Iron Mountain has a sewer system and now enjoys perfect sanitary conditions. There is a daily collection of garbage.

Iron Mountain has many advantages socially—all the leading fraternal organizations are represented, there are many literary and social societies and the inhabitants are every ready to welcome the stranger.

Iron Mountain has good hotels, several houses of entertainment and is surrounded by lake resorts where summer homes are maintained, a golf park, baseball park and the usual list of amusements.

Iron Mountain is the county seat of Dickinson county—a county with no indebtedness—having unusually fine buildings.

Iron Mountain can offer you cheap lands for factories and for homes with an abundance of intelligent labor.

Iron Mountain has a handsome brownstone city hall, a paid fire department of two companies, an efficient police force, many fine stores, beautiful homes, excellent streets, and a progressive citizenship. A daily afternoon newspaper, The

SOCIETY NOTES AND THE EDITOR'S CORNER

Spring has arrived late here in the Northwoods -- the latest it has arrived in many decades! Hopefully those additional days of winter have allowed for additional genealogical research.

The Dickinson County Library Board is considering a renovation of the Main Branch in Iron Mountain this year, and included in the plan is a genealogy/local history room. This will be a wonderful addition to the library and patrons will have an easier time finding information of interest in these areas.

The DCGS together with the library and a group from Norway are working toward possibly microfilming The Current, Norway's second-oldest newspaper which began in 1885. The majority of the original issues are held by the Menominee Range Historical Foundation Museum and the library also has a collection of about twenty volumes beginning in the mid-1890's. DCGS members Joan Oberthaler and JoAnn Johnson have worked at organizing the library's holdings this winter. Hopefully before another year rolls around at least some of these valuable Norway newspapers will be available to the public on microfilm.

The DCGS is working at organizing its own holdings, and President John Alquist has been investigating to find out where all of the various information gathered and copied by the society is located. With the possibility of a genealogical room at the library, a unified collection will hopefully result. Discussions regarding putting the material on disks has also been discussed as more members become familiar with computers.

The fire started in the residence of Henry Lord and was the result of lighting a fire in the cook stove with kerosene. Mrs. Lord got up about five o'clock in the morning and was trying to build a fire with green wood. She poured on a large quantity of kerosene and touched a match to it. There was an immediate explosion. The flames caught in some clothing hanging on a line over the stove, and then in the ceiling, which was covered with tar paper. In an instant the entire room was enveloped in flames and the building, which was a small one, and built of inflammable material, was all on fire. Mr. and Mrs. Frank D. Ader, of Greencastle, Ind., were guests of Mr. and Mrs. Albert E. Burkhalter this week.

Miss Melinda Bowden, of Duluth, Minn., arrived last Saturday and will spend the winter with her uncle and aunt, Mr. and Mrs. Alfred Bowden.

Last Sunday night, as the passenger train arrived from the north, a runaway team crossed the track in front of the train and barely escaped being killed. The team was caught by two men employed in the lumber yard and taken care of. It was afterwards learned that the team belonged to Swan Peterson, of Foster City, and was being taken to his camp at Floodwood with several other teams, and became unmanagable and ran away.

As an industrial center Sagola is making rapid strides forward. Eight years ago it was a little saw-mill town and all the logs for the mill came from Ontonagon county and the logging and milling was conducted on a small scale as compared with the present operations. The Sagola Lumber company is still logging to a considerable extent in Ontonagon county, but, as the time is drawing near that their large holdings of timber in that section will be exhausted, they are turning their attention to the large tracts of timber in the vicinity of Sagola, where logging operations are being extensively carried on this season. In addition to the logging, the cordwood industry has recently attained

preminence in this vicinity and to-day Sagola is one of the largest points for cordwood on the St. Paul road. The cedar business is also worthy of considerable note. The cedar-pole and past manufacture will be carried on to such an extent this winter that the St. Paul company found it necessary to build a new sidetrack 750 feet long to accommodate this particular industry and already the new siding is lined with skidways ready to deck the poles as soon as there is snow enough to commence hauling. There are now over twenty jobbers in cedar and cordwood in the vicinity of Sagola who will land their winter's cut along the various side tracks ready for shipment. Another feature may well be considered in the future of Sagola as an industrial center, and that is the farming industry, which, although now in its infancy in this vicinity, is sure to make rapid strides in the near future, as the lands from which the timber is now being cut, as well as the lands from which the timber will be cut for several years to come, show good rich soil and are well adapted to farming purposes. There is no doubt that, in a few years, the farming industry in this vicinity will attract wide attention and Sagola township will cut a prominent figure in the future of Dickinson county.

RANDVILLE REPORTS.

Chas. Miner and Masters Alva and Dewey McGaughey, of Mass City, spent Sunday with Calvin McGaughey.

Richard Lowry returned last Sunday morning from Appleton, Wis., where he has been employed for the past month on concrete work for the St. Paul railroad.

Lester McGaughey, of Russellville, Ind., was a guest of his uncle, Calvin McGaughey, last week. He left Monday morning for Mass City, where he has a position on the transfer for the St. Paul railroad.

Revs. Fathers Therien, of Niagara, and Chylinski, of Pound, Wis., were hunting rabbits in the vicinity of Randville Tuesday and Wednesday of this week. They met with abundant success, having bagged around a dozen apiece.

SOCIETY NOTES AND THE EDITOR'S CORNER

August has already arrived which means that school bells will again be ringing for me before the end of the month. It has been an exciting summer for me and my family with two graduations, a fiftieth wedding anniversary and the marriage of our oldest daughter, Michelle, to Tony Zambon on July 6. We now have Italian roots sprouting in our family.

En route home from delivering the wedding presents to the newlyweds in Farmington Hills, Michigan, my wife and I were undecided as to which route to take when we reached a place in the freeway indicating Flint or Lansing. We had talked about stopping in Williamston, Michigan, near Lansing, to visit the numerous antique shops located there. I had been there some years back, but my wife hadn't visited the town. It would appear that someone else was guiding our footsteps toward Williamston that day.

I was about ready to leave the first antique shop we visited on the town's main street. My wife and I both collect antique postcards and the last time I saw her she was beginning to look through a photograph binder filled with old cards. Suddenly I heard her call my name in an excited voice. When she couldn't find the price on one of the cards she had turned it over to see if it was marked on the back and was astounded to see that the card was addressed to her great-great grandmother Harriet Elizabeth (Hursh) Stringer. Not only was that card addressed to Harriet, but all ninety cards in the album were, dating from 1908 through 1916.

While the cards were fairly priced, purchasing all ninety seemed an impossibility. More than a decade ago some teenagers broke into my wife's grandparents house near Lyons, Michigan, and took a variety of family things from the attic, including a trunk belonging to Harriet. Could these cards be from that trunk? Or were they part of the items sold shortly after World War II at a yard sale following her death?

My wife presented her case to the owner of the antique shop. He said he was sure we could work something out, and checked his records to see what he had invested in the album. Amazingly, he offered the album to her at his cost, glad to see the cards returned to the family. We paid him a bit more than he asked, but were more than touched by his generosity and compassion.

What are the odds of this happening? We can't help but think that Harriet had a hand in guiding us to this kind man in this particular shop in this particular town and prompting my wife to turn over the card and see her name. The owner said he had acquired the album quite recently.

Like the two of us, he was a graduate of Michigan State University, and when we talked a bit about where we were from, he said one of his fraternity brothers was from Kingsford. That fraternity brother, Dave Manders, formerly a member of the Dallas Cowboys, had played ball for my father, who was a coach, and his parents were close friends of my parents. *El mundo es un pañuelo*. That's a Spanish saying for this situation, which translates: The world is a handkerchief. I guess we'd just say, "It's a small world."

Harriet's granddaughter, Alice Frances (Chapman) Crawford, sent her grandmother a card from Mackinac Island, helping document her first teaching experience. Alice was my wife's grandmother.

Now if we could only locate the daguerreotype of the Hursh family which was stolen and contained four of these earliest of photographs dating from before the Civil War.

Evidently there's no telling where our elusive ancestors may leave us a clue.

VOLUME XV

NOVEMBER, 1996

NUMBER 4

William Jennings Bryan arrived at Iron Mountain by special train on October 14, 1896, while campaigning for president on the Democratic ticket. Speaking to a crowd estimated at 5,000 by a reporter for *The Range-Tribune* from a stand erected for the occasion, Bryan outlined his silver money policy. Note the people watching from the rooftops, crowding the windows and even hanging from telephone poles, eager to get a better look at the 36-year-old presidential candidate who was defeated by Republican William McKinley. Businesses visible in the 200 block of South Stephenson Avenue include, from left to right, the London Store (Rusky Brothers -- Sam and Julius), 215; more of the London Store in Charles E. Parent's brick building, 219; G.T. Corning, hardware, 221; J.J. Cole, dry goods, 225; E.J. Ingram, druggist, and C.E. Steller, jeweler (according to the 1892 Iron Mountain City Directory), 229; the First National Bank, 235. [From the collection of the Menominee Range Historical Museum]

SOCIETY NOTES AND THE EDITOR'S CORNER

This issue of Dickinson Diggings ends our fifteenth year as a quarterly. You will note that this issue contains the last segment of the Dickinson County Mine Inspector Reports which has appeared during the entire run of the quarterly thus far. The Loisel/Rivest French Canadian Marriage Indexes which began in February also conclude with this issue.

Volume XVI will contain other regular offerings, such as marriages and deaths, Pioneer Portraits, News from Around the County and the conclusion of the materials from the Michigan State Gazetteer and Business Directory published by R.L. Polk & Co.

Researchers will be glad to know that the first group of Norway's weekly newspaper The Current has been microfilmed and is available at both the Dickinson County Library and the Norway Branch Library. More information about this will appear in the next issue.

Happy Holidays to All!
