February 2016

Volume 29, Issue #1

Welcome 2016!

Here's hoping that this is the year that your genealogy mysteries or brick walls come tumbling down and the genealogy gods smile upon you. Happy hunting.

It is hard to believe that five years have passed since I decided to "give it a shot" and serve as the co-editor of the newsletter. I worked with a co-editor for two issues before she decided to move back downstate. After her departure, I would now have to do it all on my own—could I do it? It is sometimes easier to bounce ideas off of a partner, and I found out in a quick hurry that it isn't nearly as easy as I originally thought, always wondering if the topics, subjects or articles are informative or timely.

As with any new project there is always that euphoria when the newsletter comes together in the most unexpected way. So far a couple of people have told me they were able to break down a "brick wall" because of my "Mining Journal Excerpt" contributions—for me it was fun and exciting to read about those early days 100 years ago. Some of them are funny or silly, like when the farmer put his goat on his neighbor's root cellar because the grass was getting too long or the time when some "naughty hooligans" tipped over an outhouse, and then there are the thought provoking ones—should the coroner pick up a young man's mangled leg or arm because that is all that is left of someone's loved one? However, my personal favorites are when they mention Mrs. So and So who is going to visit her parents and her siblings...and it then gives the names of her parents, siblings and where they are residing! Yes, let the happy dancing commence.

Then of course, I do read the articles and cringe at some of the headlines—vivid descriptions of tragedies and I wonder how the family members felt about those and then to see your loved one reduced to a two or three word description. How sad and heartbreaking. I guess that old adage that "if it bleeds, it leads" is as true then as it is today.

Tadych's Econo Foods Receipts

For those members that live in the Marquette area, remember to keep your receipts and bring them to the next meeting or mail them to the Marquette County Genealogical Society, c/o Peter White Public Library, 217 N. Front Street, Marquette, MI 49855. We also have a collection box near the genealogy section at the Peter White Public Library. The receipts are then redeemed for cash (we receive 1% of the total value), which we then use to purchase books and CD's for our collection. Please remember to save your receipts—thank you for supporting our society.

Queries: Who, What, Where and When?

Deadlines: Second week of January, April and September. No abbreviations, will edit if necessary. 1 free query, per year, per member, \$1.00 each additional query. A charge of \$2.00 per query will be levied for non-members. Send queries to: Laurie Johnson, 2333 Werner St. Marquette, MI 49855

OBITUARY INDEX

KAY ELZINGA reports that the obituary index is current thru 31 December 2015.

PROGRAM FROM 21 OCTOBER 2015

Our program this evening was entitled "Dead Ends" President JOAN BALL plied the attendees with apple cider, cookies and MARY TURVEY made barmbrack in honor of the upcoming holiday we know as Halloween. We discussed English, Irish and Scottish lore, myths, superstition and traditions surrounding the holiday. KAREN WERTANEN tried the perennial favorite "Bobbing for Apples" with a twist. This time the apples were suspended from a string, KAREN stated that it was harder than it looked.

PROGRAM FROM 18 NOVEMBER 2015

Our scheduled program was not held this evening because of two visitors who both had unique and interesting stories. The first gentleman, DWIGHT JOHNSON a local school teacher was starting his quest to find his birth family. When he was about 4 months of age he was adopted by the JOHNSON family and brought back to the Marquette area, where he was raised. He is looking for any possible candidates for his birth father after a discussion the group's consensus was to do DNA testing. The second gentleman, WILLIAM JORNS is looking for the burial location of his relative, PETER YOUNGBLUTH/YUNGBLUTH who was murdered in 1893. The group suggested looking for newspaper articles and possibly contacting the local Catholic Church or cemetery for more information.

MARQUETTE COUNTY GENEALOGICAL SOCIETY

As we do with every Christmas party, our member's generosity continues with our contribution to the Marquette County Cheer Club. The "club" distributes gifts to the needy families in our area. Thanks to Florence "Pokie" and Tom Olivier for delivering the goodies to the Mining Journal office in Marquette.

PROGRAM FROM 20 JANUARY 2016

LAURIE JOHNSON gave a presentation titled "Breaking down Brick Walls and Other Useful Information" on what is available for genealogy research. The presentation was about an hour and a half in length. It was well organized as she went through what kinds of records are available, what information you may find from these records and how this information may help with your genealogy research. This presentation was an excellent source for a beginning genealogist. Also as someone who has been involved in genealogy for the past 35 plus years I learned new things. I learned about some resources especially those concerning Canada that I never knew existed. I wish someone had given me this information when I first started out. The presentation was a gold mine of information.

Submitted by Norma Miller.

PROGRAM FROM 16 DECEMBER 2015

Our regularly scheduled program was interrupted for our Christmas party. This year the party was held at the Villa Capri restaurant in Marquette, the most popular dish seem to be the spaghetti with oodles of bread soaked in garlic olive oil. And now the real reason why everyone shows up to this party...yes Crazy Bingo. The most coveted price of the evening was a musical ceramic rocking horse and the most unusual were the rolls of toilet tissue nicely tied with a ribbon and stuffed with greenery and candy canes. For 24 members and their guests a fantastic time was had by all and the Christmas Cheer Club received some much needed donations for their annual Christmas giveaway. Without further ado the participants were: JOAN BALL, BETTY BELANGER, MICHAEL and VICTORIA BELTZ, DEAN and LAURIE JOHNSON, PEGGY LETVENOW, ROSEMARY and BILL MICHELIN, NORMA MILLER, LINDA MONTY, FLORENCE (Pokie) and TOM OLIVIER, CRYSTAL and BOB SWANSON, MARY and DAN TURVEY, MARGUERITE (Midge) and CLIFF WATERS, JUDY and BOB WEBB, KAREN WERTANEN, SHERRYE and DON WOODWORTH.

BIRTHDATE CALCULATOR USING THE 8870 METHOD

19001212 (Year, month of death, day of death 1900 December 12—YYYYMMDD)

- 711019 (subtracting the age at death 71 years 10 months 19 days—YYMMDD)

=18290193

8870 (subtracting the constant 8870)

=18291323 (born on 1829/02/23—YYYYMMDD)

While this method isn't perfect, it does give you an approximate date of birth to help further your research locating a birth or christening record.

MARRIAGE INDEX

PEGGY LETVENOW reports that the marriage index is current thru 31 December 2015.

CHARCOAL KILNS

The Carp River Furnace, property of the Peninsular Iron Company built in 1873 by WILLIAM BURT, agent of Burt Free Stone Company and NOAH W. GRAY, director of Carp River Iron Company. The kilns sit on the mouth of the Carp River at the edge of Marquette city limits.

In 1874 the first firing of the furnace was commenced. The business only lasted a short time after making some 1,445 tons of pig iron.

The Carp Furnace built in 1872/1873 with the stack 58 ½ feet high. This structure burnt down in 1882, was rebuilt in 1889/1890 and lay idle for several years. Finally in 1899 it was rebuilt with two iron stoves, warm blast and other products such as foundry, malleable and low-phosphorus pig iron with a capacity of 18, 000 tons yearly.

After many years of the furnace being idle, in 1899 CHARLES SCHAFFER and NOAH W.

GRAY was involved in the reconstruction of it. The furnace had the capacity to produce 11, 000 gross tons of pig iron. They remained with the company until 1905 when it was sold to the Pioneer Iron Company.

In 1905, Pioneer Iron Company had the capacity to produce 50 tons of pig iron a day, produced by the burning of hardwoods, harvested by local "jobbers" whose job was to locate adequate sources of hardwoods. A cord of hardwood would produce 50 bushels or 1,000 pounds of charcoal daily. The fuel used was charcoal obtained from the company's beehive kilns, located across the road from the furnace.

Most charcoal kilns were about 20 feet high and 25 feet in diameter and built in a row so that the wood could be hauled using a tramway and then dumped into the top opening of each kiln. The kiln had an opening on the bottom for removing the charcoal. To control the temperature and regulate the heat, small holes were located on the sides.

A historical sign that was nearby states "2 of the original 36, local hardwoods burned to charcoal in these kilns supplied the fuel for the Carp River Blast Furnace located across the road where ore from the Marquette Iron Range was reduced to pig iron from 1874 to 1907."

SAN FRANCISCO EARTHQUAKE

CHARLES ERICKSON, of Ishpeming arrived here yesterday from San Francisco. He left there last Wednesday evening, the day of the earthquake which has made San Francisco one gigantic ruin. He was not in the city at the time of the quake, but was at Mare Island navy yards, twenty-seven miles south of there. The shocks were felt at Mare Island, but were comparatively slight and insignificant.

ERICKSON had received his discharge from the Marine Corps service on account of physical disability resulting from an attack of rheumatism, which came upon him shortly after the rainy season set in.

MICHIGAN POOR HOUSE RECORDS

The State of Michigan, but more particularly the various county governments, used to maintain institutions for the benefit of the indigent ill, tuberculosis sufferers, and the homeless. The following list identifies the records of this genre that are stored at the State Archives. Some of these records may be confidential, possibly requiring special permission by the creating agency before researchers can gain access to them. The registers received from county infirmaries and county poor farms are not restricted and permission is not needed from the Department of Social Services to see them. Sanatoria records are confidential, and access to them must be approved by the Department of Public Health.

Although "Registers" are the best type of record for genealogical research...if you cannot locate a register, other types of records very often have inmates mentioned by name. For example, the cost of a coffin may be recorded in some sort of bookkeeping journal and can help you obtain the date of death of an inmate. Minutes of the Superintendents may record the "binding out" (or indenturing) of children. So don't give up if there remain only these types of records; patience may be rewarded as you search through such tedious records.

THE NAME REMAINS THE SAME

This little endeavor started when I was researching one of my husband's paternal lines and came across the same few names generation after generation, which makes it doubly complicated when all the siblings seem to take the same track and name their children the same and remain in the same geographical area. Hence I have found in one line 5 generations of the same names repeatedly used over and over...Ugh. Granted my sample (pre 1800) were relatively small and I only used the four most common names in my husband's paternal lines. To insure accuracy I checked bible, birth, church, marriage and death records. In later years I used the Social Security Death Index and took the top 4 names for boys and girls names. This list is by no means a complete listing, use at your own risk!

HINT

When working on your genealogy a handy tool is a calculator. This device will tell you whether or not the age makes sense. Most males did not have children before the age of thirteen. Most females did not usually bear children before the age of 8 and not usually after the age of fifty.

Happy (early) Father's Day.

In early 1909 a woman, Sonora Smart Dodd wanted to honor her father, William Jackson Smart who raised six children by himself after the death of his wife. She wanted the date to be on 05 June, the birth date of her father. The first Father's Day was observed 19 June 1910 in Spokane, Washington. Soon after that many towns celebrated it, however it wasn't until 1972 that President Richard Nixon signed into law that the 3rd Sunday of June would be set aside to honor them. Happy 106th Anniversary!

This is for all those father's whether they are biological, stepfathers or just plain "daddies", thank you for all that you do.

A woman that shall be referred to as Jane Smith, told me about a sad situation in which she found herself after taking a DNA test. The man that she thought was her "daddy" turned out he wasn't her biological father after all. She had always jokingly said that since she didn't really look like her sister or brothers, so it "must have been the mailman." This family joke turned out to be not a joke after all. After Jane got her DNA results back she questioned her mother and her mother just stated "you don't need to know" and took the secret to her grave. She asked her "daddy" if he had any idea of who it could have been, and he told her no. He reassured her that she would always be his daughter, even though they weren't biologically related. After many nights tormenting her self that her whole life was just a lie, her son (named after his grandfather) asked her why she was mad at her "daddy" and with that simple question forced her to examine who she was really angry with.

A couple of years have passed now and she now is pretty confident she knows who her biological father is, her biggest dilemma is should I contact him and let him know he has another child. Would he even care? She knows that she has other half-siblings and would they want to know? Does she look like them? She still feels resentment towards her mother, but with age and time she gained maturity and acceptance in circumstances in which she had no control. The last time I talked with her she told me this, "be careful with what you wish or hope for, sometimes life throws curveballs at you and it is hard to recover." Her biggest regret: taking the DNA test.

TADYCH'S ECONO FOODS RECEIPTS

For those members that live in the Marquette area, remember to keep your receipts and bring them to the next meeting. We also have a collection box near the genealogy section at the Peter White Public Library. If it would be more convenient you can mail your receipts to the: Marquette County Genealogical Society, 217 N. Front Street, Marquette, Michigan, 49855. The receipts are then redeemed for cash (we receive 1% of the total value), which we then use to purchase books and CD's for our collection. Please remember to save your receipts—thank you for supporting our society.

PROGRAM FROM 17 FEBRUARY 2016

Our program this evening was held at the Family History Center in Marquette, located at 350 Cherry Creek Road with NOEL GOMILLION, the current director as host. The hours are currently limited due to lack of volunteers. If you have extra time and would like to help out you can e-mail her at Noel@gomillion.org. She gave the 11 attendees a broad overview of all the resources that are available whether it is a new microfilm, microfiche or computer databases. The center has a station in which you can search your film, download the image to a jump drive (thumb drive) and view your images later at your residence. The FHC has computers with programs and databases ONLY available at your local FHC. Some of the FREE databases are: 19th Century British Newspapers, Alexander Street Press (American Civil War Collections), Ancestry.com (Family History Library Edition), ArkivDigital Online, Findmypast.com, Fold3, HeritageQuestOnline, Historic Map Works (Library Edition), MyHeritage.com, NewspaperArchive.com, Paper-Trail.org, Puzzilla.org, ProQuestObituaries and WorldVitalRecords.com.

PROGRAM FROM 16 MARCH 2016

Our program was given by JUDY WEBB, titled "Pioneer Certificates" and the valuable information they contain. The 16 attendees had an opportunity to look over all the files. When this program was instituted in 1999 for the Sesquicentennial, you had to prove step by step that your family was either a founder or settler. In order to qualify for a founder certificate your family would have to be a resident of Marquette County beginning in 1850. To qualify for a settler certificate your family would have to be a resident of Marquette County prior to 1900. Because of the personal information contained within these documents they are only viewable when a member is available.

BEGINNING GENEALOGY WORKSHOP 07 APRIL 2016

JOAN BALL and LAURIE JOHNSON presented the workshop to 40 participants at the Peter White Public Library, beginning at 6:30 p.m. and lasting approximately 2 hours. They covered topics beginning with the "why" and "how" to fill out ancestor/pedigree charts, family group sheets, research logs, correspondence logs, research extracts and source summaries.

INTERMEDIATE GENEALOGY WORKSHOP 14 APRIL 2016

JOAN BALL and LAURIE JOHNSON presented the workshop to 34 participants at the Peter White Public Library for a two hour block beginning at 6:30 p.m. They covered topics such as baptismal or christening, cemetery, census, family bible, funeral home, land, naturalization, probate and vital records, transit and burial permits, coroner's reports, city directories, local newspapers, Social Security Death Index (SSDI) and United States Federal Mortality indexes (1850-1880) and the 1880 Schedules of Defective, Dependent and Delinquent Classes, also known as the Triple D census.

QUERIES: WHO, WHAT WHERE AND WHEN

Deadlines 2nd week of January, April and September. Please no abbreviations, will edit if necessary. 1 free query per year, per member. \$1.00 for each additional query. A charge of \$2.00 per query will be levied for non-members. Please send queries to Laurie Johnson at L2dauph@hotmail.com

PROGRAM FROM 20 APRIL 2016

Our program this evening was presented by DAN FOUNTAIN, titled "Michigan Gold and Silver Mining in the Upper Peninsula and the Lake Superior Connection." He spoke about early mining explorations in 1846 on Talcott Harbor and Camp Gray (which is now Presque Isle) and that some shafts are still visible although in hard to reach locations. There were over 50 gold and silver mines in Marquette County, although most were not profitable and therefore shut down. Many owners would purchase any and all land they could in the hopes they would strike it rich. Most of the owners of various mining operations all knew each other and controlled all the riches. Most of the stock certificates issued back then are worth more money now. Some years ago at the Empire Mine in Ishpeming, amethyst was found. Many of the miners who worked there have their own private collection of the stone.

GENEALOGY LOCK-IN 22 APRIL 2016

The Annual Spring Genealogy Lock-In held on Friday evening at the Peter White Public Library was a success! The doors opened at 6:15 and approximately 40 participants were clamoring to get in. Special thanks to all the volunteers and staff, who without their time and effort this event would never happen, so without further ado, here they are: PWPL Reference Librarians—LYNETTE SUCKOW and DIANA MENHENNICK—you are the best! JOAN BALL—President of the Marquette County Genealogical Society—for doing whatever needed to be done! NORMA MILLER—for your ability to keep the registration table orderly and quick! DEAN JOHNSON and CRYSTAL SWANSON—for your computer lab expertise, SHERRY WOODWORTH—for your presentations on DNA genealogy, Find-a-Grave and Family Tree Maker (FTM), PAT BERNARD—for your vast knowledge on International Research, KAREN KASPER—for showing us the records that are available at the Northern Michigan University Archives, SARAH SMART—member of National Society of the Daughters of the American Revolution (NSDAR) and how to locate records to find your ancestor, ROSEMARY MICHELIN—for showing some of the types of military records, documents, scrapbooks and photo albums that are available at the Marquette Regional History Center and LAURIE JOHNSON for locating different types of military records and where to find them.

NEGAUNEE CEMETERY

The cemetery transcription committee is eagerly awaiting the arrival of spring (which in the UP could occur in July) so we can continue our mission to transcribe the cemetery. As soon as the snow melts and the mosquitoes come out, we will most likely begin transcribing and hopefully this year we will complete as many blocks as possible. The day and time will be determined at a later date. If this is something you would be interested in please contact either of the co-chairs: Rosemary Michelin at Rose@mqthistory.org or Laurie Johnson at L2daupeh@hotmail.com

ANCESTRY.COM 30% OFF SUBSCRIPTION RATES

Limit one discount per valid AARP member number, may not be transferred or postponed.

A FAREWELL

JOAN M. KAPPELLER passed away on 02 February 2016 at the Upper Peninsula Health System in Marquette. Jo was a charter member of the Marquette County Genealogical Society, former co-editor of Lake Superior Roots and a driving force behind the early formation of the cemetery transcription committee. The first cemetery the society began with was her discovery of a long neglected cemetery named the Kultalahti Cemetery in Richmond Township (Palmer). She will be greatly missed for her dedication to preserving history. Condolences to her husband Bill, daughters Marie and Heather.

MICHIGAMME PUBLIC HIGH SCHOOL

Michigamme was founded in 1872 by JACOB HOUGHTON, who discovered the Michigamme Mine (also known as the Mt. Shasta Mine). The first test pits were sunk and mining commenced that year. With close to 1, 800 residents the village needed a school. The first school in the village was opened in 1873 and the teacher was F. O. CHAMBERLAIN in a building owned by Mr. RYAN and Mr. GALLAGHER. Prior to 1876 school activities were held in rented buildings. A dedicated building used solely for school purposes was not built until 1876.

In 1915 the "new school" was built to replace the school that burnt down in 1914. Twelve seniors graduated from the school in 1916, and they are; ANNA JOSEPHINE ANDERSON, FRANCES CECELIA DIEDRICH, LYDIA AGNES GREENLEAF, LYDIA ELVIRA HALVORSEN, SARAH CATHERINE HICKEY, ANNA FLORENCE JOHNSON, EMILY OLIVIA LUND, OTTO ROBERT LUND, NEIL EDWARD MARKS, DANIEL BRYAN RAHILLY, MANILA LIBBY TRESIZE and DONALD JOSEPH TRUCKEY.

A CANADIAN ADVENTURE

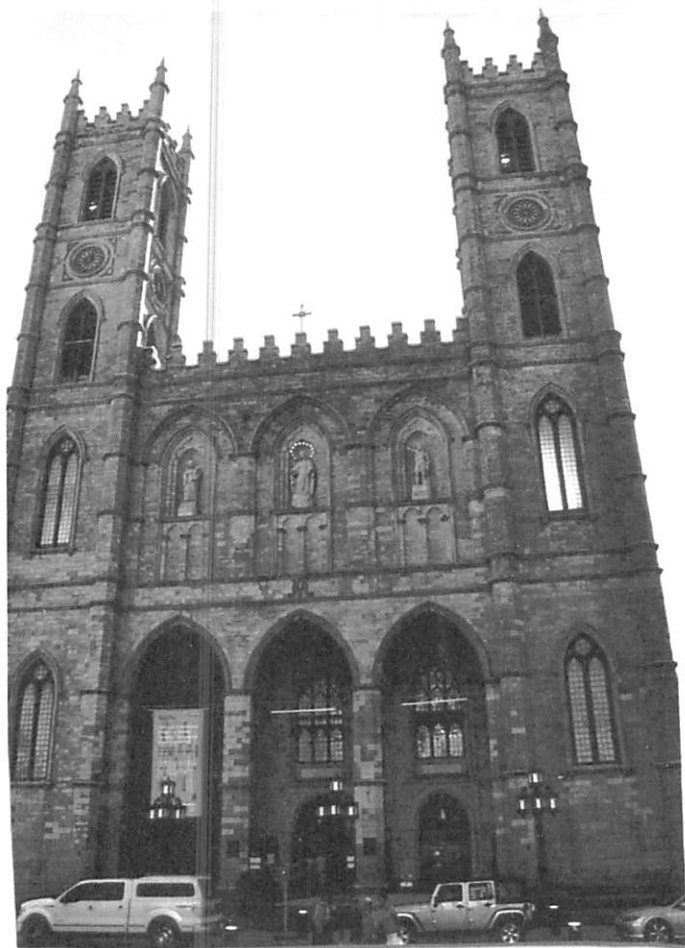

On 19 September 2015, Judy Webb, me and 34 others departed Marquette aboard a Checker tour bus for a wonderful 10 day adventure in Ontario and Québec. From Marquette we traveled east and stopped for the night in Sudbury, Ontario, departing for Ottawa in the morning. Along the way we stopped in Deep River for a delicious luncheon and some lucky participants were able to imbibe in some pea soup.

Once we arrived in Ottawa some of the tour group headed off to the Library and Archives in search of an elusive ancestor! There were some exciting discoveries uncovered. Judy and I chose to tour the Parliament building, built in 1866, amazing and the Gothic Revival architecture breathtaking. Because of the time constraints our tour was shorter than I would have liked. After this the group went to the Canadian Museum of History seeing many exhibits depicting Canadian life and culture (highly recommend.) After crossing the Ottawa River and arriving in Montreal in the evening, a spectacular night to absorb the history and sights.

On Tuesday, 22 September, with our special guest aboard the bus, a local resident who was our tour guide. Our first stop was the Notre Dame Basilica, located in the historic district of the Old Montreal City. This Catholic house of worship was designed by James O'Donnell, an Anglican from New York, built in the Gothic Revival style. It was built with intricate wood carvings and several statues. Usually the stained glass windows depict biblical scenes, this church however chose to honor the religious history of Montreal. It was built between the years of 1824-1828, opening in 1830 with the impressive tower structures rising approximately 200 feet into the Montreal skyline. The first tower was completed in 1841 and the second in 1843. Mr. O'Donnell converted to Catholicism and is the only person buried in the church's crypt. I had never been there and the beauty and significance brought me to tears. For Judy and me an immediate connection as we both had ancestors who were christened and married in this church.

Our guide then took us to St. Joseph's Oratory in Montreal a beautiful and massive cemetery which would have been so much fun to explore. Our next stop was Mont Royal the underground city of Montreal and Old Montreal. The next day was a free day so we decided to explore Old Montreal, we shopped, ate delicious food, shopped some more and walked many miles!

On Thursday 24 September, after an early wake-up call we were headed to Trois Rivières. Many of us had ancestors from here and after a short visit seeing more architecture; we were then headed for Quebec City. We arrived in Quebec City at lunchtime and needed to find some food, Judy and I and two other participants ate at a restaurant called Petite Cuchon “Little Pig.” After a bit of free time we saw the Chateau Frontenac which towers over the city and beckons you to come closer.

On 25 September, we had another special guest aboard the bus, a native Québécois with much knowledge of her city. Our first stop was the Plains of Abraham (I had an ancestor who fought in the battle). This park is massive. After pointing out another architectural gem, the Parliament building, we were on our way to a family owned copper gift shop, started by Albert Gilles 87 years ago. He crafted the doors of the Ste-Anne-de-Beaupré Basilica. While in Quebec City we stopped at Chez Marie, a restaurant that has been around a long time as the oven that baked our bread is 150 years old. We tried maple butter on our freshly baked bread—*délicieux*. After our delicious luncheon, we took a short bus ride to see the Ste-Anne-de-Beaupré Basilica, located about 20 miles east of Québec City. The original basilica burnt down in 1922 and the present one was rebuilt on the same site. Three architects collaborated on this project from 1923-1931, because of the recession the interior was not completed until 1946. The church is a combination of Romanesque and Gothic Revival architecture with its towering spires reaching 300 feet into the Québec City skyline. This church is a major Catholic place of pilgrimage and is known as a place of miracles. Unfortunately we only had 45 minutes to tour this gorgeous edifice—not nearly enough time.

After returning back to Quebec City all participants enjoyed an authentic French-Canadian dinner with pea soup, maple ham, tourtière, homemade pork rinds, ragoût de boulettes (meat balls), potatoes, baked beans, coleslaw, pancakes and maple taffy. A truly amazing day.

On 26 September, another free day and time for exploration in Quebec City. Judy and I walked, shopped, ate and shopped some more. While here Judy wanted to locate and statue of one of her ancestors, Marie Rollet, after walking miles we finally found her statue in the upper part of Quebec City, overlooking the city and the St. Lawrence Seaway, absolutely breathtaking views.

On 27 September, we left Quebec City for our return back to Marquette. The entire trip was filled with memories, starting with architecture, food, the people and the history, knowing that perhaps we were walking the same streets as our ancestors. A trip I would highly recommend.

STATE OF MICHIGAN ARCHIVES

The State of Michigan Archives is located at 702 W. Kalamazoo Street, Lansing, Michigan 48915. The telephone number is 517-373-3559. Research hours are Monday thru Friday 1-5p.m. and Saturday 10:00 a.m. to 4:00 p.m. In addition to the Archives' extensive holdings of Michigan state government records, our collections also include records of counties from across the state. For the family history researcher, this could also include tax assessments, naturalizations, probate files, poor house registers, vital records, chancery case files, occupational certifications and much more. For more information on their holdings please see their website at <http://seekingmichigan.org/about/guides/county-records>

STATE OF MICHIGAN ARCHIVES-NATURALIZATION INDEXES

Through the hard work of dedicated volunteers, many of our naturalization records are indexed. These records are primarily organized by county because they were created at the county level. There are additional counties that have not been indexed or whose indexes are too large to put online. For more information please see the website: <http://seekingmichigan.org/about/indexes>. Find the tab that says "Alphabetical List of Indexed Counties." Scroll down until you locate the county you may need, and most are separated alphabetically by surname. Presently there are 34 counties listed.

The indexes are PDF files (Adobe Acrobat Reader required). If you find a relative, you can order a copy of these records through the online store. A copy of the records cost \$20.00.

Please be aware when searching old records misspellings and name variations frequently occur.

MARQUETTE COUNTY NATURALIZATION RECORDS

The Northern Michigan University Archives has all the naturalization records for Marquette County. This collection includes Declaration of Intention, Petitions for Naturalization and Citizenship Certificates. While information on the records varies, they may include the city/town/village they came from, their occupation, exact date when they immigrated, the ship they immigrated on, or perhaps the names of their spouses and children. Check immigration records for people with similar names as they are perhaps related. Most people did not immigrate by themselves. Later immigration papers may even include a photograph of the immigrant.

One does not need to be a student, staff or faculty member to use this collection. The NMU Archives are located in Room 126 of the Learning Resources Center, below the Lydia M. Olson Library. The hours are Monday-Friday 8:00 a.m. to 5:00 p.m. For more information please contact the NMU Archives at: <https://wwwnmu.edu/archives/naturalization-records>

NATURALIZATION RECORDS AT THE NATIONAL ARCHIVES AT CHICAGO

This regional branch of National Archives and Records Administration (NARA), located at 7358 South Pulaski Road in Chicago serves the states of Illinois, Indiana, Michigan, Minnesota, Ohio and Wisconsin. This branch has the "Petition Indexes", "Declarations of Intention" and the final "Petitions". The records are separated by state, district and then city. If you are looking for Marquette, Michigan records they have the "Petition Indexes" from 1887-1915 and 1971-1991; the "Declarations of Intentions" from 1887-1909 and the "Petitions" from 1888-1915 and 1971-1991. If you cannot make a personal trip to Chicago, you may order a copy of the naturalization record at a cost of \$10.00, includes shipping and handling. For more information please call them at (773) 948-9001 or visit their website at: <http://www.archives.gov/chicago/finding-aids/naturalization-records.html>

Note: The United States Citizenship and Immigration Services (USCIS, formerly the Immigration and Naturalization Service) in Washington, D.C. has duplicate copies of naturalization petitions created after 26 September 1906 in all federal, county and municipal courts.

BIRTHDATE CALCULATOR

- 1) Put the date of death into YYYYMMDD form, padding MM or DD with a leading 0 if necessary.
- 2) Put the age of death into YYYYMMDD form, padding MM or DD with a leading 0 if necessary.
- 3) Subtract the age from the date of death, using regular decimal subtraction. If the resulting MM or DD are within normal range for month and day, the calculation is done.
- 4) If the resulting DD came out to either 00 or greater than 30, subtract 70 from it.
- 5) If the MM resulting from the last step came out to either 00 or greater than 12, subtract 88 from it.
- 6) The result will be the date of birth in YYYYMMDD format.

THE WHOLE GANG IN JAIL

Tonight practically all of the men who had anything to do with the robbery of the Mineral Range express last Friday of \$70,000 are in jail or under espionage and up to date \$14,000 of the booty has been recovered. Today GEORGE LIBERT, a former fireman on the Duluth, South Shore and Atlantic Rail Road, was arrested here by the police on a telegraphic order by the sheriff of Houghton County and made a clear breast of the whole affair. The other men under arrest are A. S. CANNON of Hancock, a young man of a good family, whose trunk was used to carry away the money; JOHN KING, an athlete; --- CHELLEW, a saloon keeper of Negaunee; MICHAEL and JOHN SHEA, saloonists in Marquette; TOM WINTERS, baggage man; D. W. HOGAN, the messenger on the robbed car; ED HOGAN, saloonist; W. S. HOUBE, hack driver; and O. BUTLER, a habitué of CHELLEW's place.

MICHIGAMME INFERNO, Part 2

Michigamme City, Marquette County on Lake Superior, was yesterday destroyed by fire. The fire was caught from the burning woods around. The place was a mining town in the iron region, and contained some 800 inhabitants. Among the buildings burned was a mill of Jackson Houghton, just equipped at the expense of \$40,000. At the Spurr Mine, two barns and a number of log houses were burned. The heat has so warped the rails of the Marquette, Houghton & Ontonagon Railroad as to render the passage of cars impossible. In certain places the telegraph poles were burned and the wires are lying down along the track. Superintendent MERRITT, as soon as he had heard of the catastrophe, sent a special train with relief for the sufferers.

A dispatch received today by Superintendent HASKINS, from Green Bay, reported the destruction of the town of Michigamme by fire, says 8 bodies have been found, and persons are still missing. The people took refuge in the lake.

UNITED STATES FETAL DEATH RECORDS

A clinical definition of a fetal death is defined as death prior to the complete expulsion or extraction from its mother of a product of conception. The death is indicated by the fact that after such a separation the fetus does not breathe or show any other evidence of life. Some states issue "Fetal Death Certificates", "Report of Fetal Death", "Certificate of Stillbirth" or "Certificate of a Birth Resulting in Stillbirth." While they all may sound similar they are all different documents. Use this information only as a guide contact your local officials for further information.

- Alabama—Only parents may request a copy of a "Certificate of a Birth Resulting in Stillbirth." A "Fetal Death Report" is a statistical report and no certified copies are issued. However, for a period of two years after the event a non-certified copy may be requested by the parent.
- Alaska—Only parents may request a copy of a "Certificate of a Birth Resulting in Stillbirth." A copy of a "Fetal Death Certificate" is available only to the parents.
- Arizona—Only parents may request a copy of a "Certificate of a Birth Resulting in Stillbirth." A "Fetal Death Certificate" may be requested by the parents or another person with written authorization from the parents.
- Arkansas—A hospital will file a "Report of Fetal Death" if the fetus weighed 350 grams or greater. Also a "Certificate of a Birth Resulting in Stillbirth" will be issued to anyone who can prove they have a relationship to the fetus.
- California—Only parents may request a copy of a "Certificate of a Birth Resulting in Stillbirth." Only parents may request a copy of a "Certificate of Stillbirth." A copy of a "Fetal Death Certificate" is available to anyone with the proper fee.
- Colorado—Anyone who has a direct and tangible interest in the record may request a copy of a "Fetal Death Record." A "Certificate of Stillbirth" is issued to parent, grandparent, sibling, funeral director or legal representative—must submit proof of relationship.
- Connecticut—A copy of a "Fetal Death Certificate" is available to parents, grandparents or guardians. If record is older than 100 years, then anyone may request with the proper fee. Only parents may request a copy of a "Certificate of Stillbirth."
- Delaware—Records start in 1928. Parents may request a copy of a "Stillbirth Certificate." A "Fetal Death Certificate" is issued however you must prove relationship to receive a copy of a death record.
- Florida—Parents, legal representative or court order may request a copy of a "Certificate of a Birth Resulting in Stillbirth." Anyone may apply for a copy of a "Fetal Death Certificate", however only cause of death will be issued after 50 years, unless you are the parent.
- Georgia—Only parents may request a copy of a "Certificate of a Birth Resulting in Stillbirth." A copy of a "Fetal Death Certificate" is available only to the parents.
- Hawaii—A "Fetal Death Certificate" may be requested by the parents or others with written authorization from the parents.
- Idaho—A "Certificate of Stillbirth" is confidential for 50 years. Immediate family members or their legal representative may request a copy of a "Fetal Death Record" and you must prove your relationship to the fetus.
- Illinois—Parents can request a copy of a "Certificate of a Birth Resulting in Stillbirth." A "Fetal Death Certificate" is issued and you must have a direct connection to the fetus, or written authorization from a family member.
- Indiana—Only parents may request a copy of a "Certificate of a Birth Resulting in Stillbirth." The parents may request a copy of a "Fetal Death Record."
- Iowa—Only parents named may request a copy of a "Certificate of a Birth Resulting in Stillbirth." A copy of a "Fetal Death Certificate" is available only to parents.

Volume 29, Issue #3

Sometimes the most innocuous conversations can lead to discovering new relatives and documents. One beautiful summer evening while strolling through Marquette's Park Cemetery, a middle aged woman Mary, her daughter Ellen, grandson Michael and granddaughter Mollie, were looking for a relative who fortunately (for me anyway) was buried nearby. In the course of our conversation I found out that we had a common relative and we started talking about the family. The most astonishing thing is she had pictures of these relatives on her hand held cell phone/computer—how cool is that! This is the story that Mary told me.

Many years ago Mary along with her mother Helen were cleaning out her recently deceased mother Nellie's home. While they were in the attic they came across an old cedar chest that had obviously not been opened in many years. The lock was so encrusted with rust and possibly other things they had to call in a locksmith to have it pried open. When the locksmith opened the chest, what treasures abounded. They found birthday cards, school artwork, report cards, school awards and scrapbook after scrapbook. Nellie had so carefully documented her children's lives and her daughter had tears in her eyes remembering those long ago stored memories.

When Helen passed away 15 years ago, Mary inherited the chest along with all the treasures, and didn't really think about it much until her grandson Michael had to do a family history project. He called his grandmother to ask her about his family and what did she know about them. She told him to come over and perhaps together they would discover some relatives and treasures.

Amongst the school artwork, school awards and report cards however that is not the only treasure that was found, in one of the scrapbooks, was an official looking piece of paper with Nellie's name and address printed on it...it was kind of unusual until they started to investigate why she would keep this slip of paper. It turns out that this little slip of paper gave her the right to vote in the 1920 presidential election. They don't know who she voted for but it must have been a great source of pride for her to finally have the right to vote.

UPCOMING EVENTS AND PROGRAMS

TADYCH'S ECONO FOODS RECEIPTS

For those members that live in the Marquette area, remember to keep your receipts and bring them to the next meeting. We also have a collection box near the genealogy section at Peter White Public Library. If it would be more convenient, you can mail the receipts to the Marquette County Genealogical Society, c/o Peter White Public Library, 217 North Front Street, Marquette, MI 49855. Receipts are then redeemed for cash (we receive 1% of the total value), which we then use to purchase books and CD's for our collection. Please remember to save those receipts—and thank you for supporting our society. In May of 2016 FLORENCE “Pokie” OLIVIER redeemed the receipts and the society received a check for \$360.10 to help defray the cost of purchasing books and CD's for our collection.

PROGRAM FROM 18 MAY 2016

SHERRY WOODWORTH presented a program this evening titled "Surname Distribution Maps" and their usefulness in locating your ancestors (provided they didn't have a common surname such as Johnson or Nelson or any occupational surnames, such as Cooper or Smith). The maps display where the surnames occurred at different periods of time. The maps provide a starting point for researching in their birth country when information is not available in their new locale. This mapping system works particularly well if their name is less common and they stayed in the same country for decades or centuries. If you would like more information please visit the website at:

http://familysearch.org/wiki/en/Surname_Distribution_Maps

PROGRAM FROM 20 JULY 2016

The weather was absolutely perfect with beautiful sunshine and the view of the majestic Lake Superior was "superior." Our annual genealogy picnic was held at the main pavilion on beautiful Presque Isle, beginning at 6:00 p.m. The attendees included JOAN BALL, DEAN and LAURIE JOHNSON, BILL KAPPELLER and daughter HEATHER KAPPELLER, PEGGY LETVENOW, FLORENCE "Pokie" OLIVIER and her daughter-in-law JULIE, grandchildren ELYSA, LIAM, NICKOLAUS and YALE OLIVIER, MARY TURVEY, BOB, JUDY and their son JIM WEBB, granddaughter JESSICA CARTER, great granddaughters ANGEL and PASHANCE CARTER and KAREN WERTANEN were treated to hotdogs, sloppy joes, chicken wings, taco salad, fruit platter, potato chips and dip, coleslaw, cookies and cake. The food was delicious and the company spectacular.

PROGRAM FROM 21 SEPTEMBER 2016

President JOAN BALL presented a program titled "Internet and Genealogy Scams" and gave examples of some of the more notorious genealogical scams, i.e. generic family surname history books (glorified telephone directories), family crests (no such thing), and others like Gustave Anjou, who made up his own connection to lineages and documentation. And then there are those that take advantage of well-intentioned researchers. Joan relayed a heart rendering story where a man placed a query on a genealogy board that he was searching for pictures and artifacts of his Jewish ancestors. A dishonest thief replied to his post that she had pictures from her grandfather who was a Gestapo (Secret State Police) during World War 2, and lo and behold his ancestors "miraculously" were included in this collection of pictures. Of course, she didn't want her name used because of the *sensitive subject matter*. After numerous communiqués he replied that he would pay for the "entire book," they discussed shipping and postal fees and made arrangements for her to send the book...it was to be shipped out on a certain day, requested a tracking number and when that day came and went she took his money and disappeared.

NEGAUNEE CEMETERY

Starting in July of 2016 we spent the first few weeks revisiting the cemetery transcription sheets that were done previously. We were able to accomplish two things at the same time, correcting misplaced letters and numbers and note new additions. The group was surprised to see how time and the elements are eroding these valuable monuments. Some stones that were legible in 2001-2004 are now in such condition that the carvings are no longer visible to the naked eye. We used our "new" favorite tool a flashlight to highlight hard-to-read letters and numbers. We may never know for certain if the information entered years ago is correct, but it is the only documentation we have. This summer we completed 9 blocks with the help of a few of the Marquette County Genealogical Society members and a wonderful volunteer continued with its mission to transcribe the cemetery. By the time the season ends, the transcribers: DIANE GARRETT, NANCY GRIGG, DEAN JOHNSON, LAURIE JOHNSON, ROSEMARY MICHELIN, CRYSTAL SWANSON and KAREN WERTANEN hope to have all the blocks on the western portion completed.

QUERIES: WHO, WHAT, WHERE AND WHEN

Deadlines 2nd week of January, April and September. Please no abbreviations, will edit if necessary. 1 FREE query per year, per member. Please remit \$1.00 for each additional query. A charge of \$2.00 per query will be levied for non-members. Please send queries to L2dauph@hotmail.com

ST. LUKE'S HOSPITAL

The Marquette city hospital was located at a residence at 152 East Prospect Street, where they remained for two years. When they outgrew that space doctors GEORGE J. NORTHROP and ALBERT A. FOSTER relocated to 219 North Front Street (presently where the Peter White Public Library stands) where they remained for a short time. Needing more space for new patients and technology in January of 1897 the hospital was relocated to 123 West Ridge Street, a three story wood dwelling in Marquette. To reflect a new change and location in 1897 the name was changed to St. Luke's Hospital after the patron saint of physicians and surgeons. St. Luke's hospital was largely under the auspices and supported by the St. Paul's Episcopal Church of Marquette. The "Best Equipped Hospital in Northern Michigan" the forty bed facility was incorporated, the staff consisting of Doctors: ALBERT A. FOSTER, ORRIN G. YOUNGQUIST, FREDERICK McDONNELL HARKIN, HARRY J. HORNBOGEN, FRANK A. GRAWN, ALFRED W. HORNBOGEN and a dentist Dr. ELMER L. DRAKE. FRANK STOLPE resided at the hospital as the superintendent. Miss VERNE E. PARKER was the Superintendent of the Training School for Nurses. The state of the art hospital had hot and cold running water, indoor bathrooms, X-rays, a laboratory and Turkish baths.

FRANK E. STOLPE was employed as the Superintendent and resided onsite, worked as a nurse for the male patients, handy-man and cook. Mr. STOLPE had to literally carry the patients on his back because the building did not have an elevator. For a time his wife ANNA (nee MAGNUSON) also cooked for the patients and staff. Mr. STOLPE spoke fluent Finnish, Swedish and English and served as an interpreter for those patients. He worked at the hospital for over 40 years.

EDNA M. BROWN, MARIE COOK, NELLIE B. CRARY, Mrs. CLARA L. MACK, THETA C. MEADS, Mrs. MARY S. MCKERRIGHAN were employed as nurses and FRANK KEOUGH was employed as a masseur at the Turkish baths. MABEL MURPHY and ELLEN NELSON were employed as housemaids.

The board of directors consisted of: PETER WHITE serving as President, JOHN W. STONE, Vice President, ALBERT A. FOSTER, Secretary and Treasurer, Rt. Reverend G. MOTT WILLIAMS, JOHN MUNROE LONGYEAR, ALFRED KIDDER, ALBERT E. MILLER.

An ad in the 1899 Marquette City Directory proclaimed "accommodation for 50 patients. All beds in wards, as well as private rooms, connected by *electric bells*. The best equipped hospital in Northern Michigan. Corps of trained nurses. X-ray laboratory in connection."

The Longyear family donated the land on which the new hospital was to be located near Hebard Court and the south-west corner of College Avenue. The new hospital's capacity was 50-60 beds and it was a "state of the art" facility for that time. The original building is still standing (2016) and is hidden amongst all the additions.

POLK CITY DIRECTORIES

City directories are an under utilized resource for genealogists. They are a wonderful resource for learning about the people and businesses in cities where your ancestors lived. They can be found at many public libraries, historical or genealogical societies and state archives.

If you cannot travel to the area where your ancestors resided, contact the local public library and ask if they have city directories available, if so request (nicely please) if they will copy the pages for you. Most librarians will do this for a small monetary donation.

Since 1870 the R. L. Polk Company has found its niche in publishing an every name index of the inhabitants of a particular city or cities. (Note: rural areas were not always included in city directories.) The codes found in city directories haven't changed much at all since the beginning. If you see the letter {H} this means head of household, the letters {Bds} means they were either living or boarding with the head of household. {Res} means resides and is usually referring to the head of household.

Most city directories (in the United States) will have the following information, which may include a history and statistics of the city/town/village, size and geographical features. It will have an index of abbreviations that are used, usually located in the front pages of the directory.

- 1) Alphabetical listing of residents.
- 2) Street addresses.
- 3) Widows or working women.
- 4) Names of children employed outside of the home.
- 5) Listing of streets and cross streets.
- 6) Street name changes.
- 7) Removals and sometimes even destinations!
- 8) Asylums, banks, benevolent societies, businesses, cemeteries, churches, fraternal organizations, governmental offices, hospitals, newspapers, post offices, prisons, public work departments and schools.
- 9) Occupation and where they are employed, along with the address.
- 10) Some directories (especially the later ones) will list the wife in parentheses.
- 11) Whether or not they are widows.
- 12) Marriage and death dates from the previous year.

City directories are a useful tool for tracking when your relative lived in a community and how long they remained there. If your relatives were immigrants with this information it is possible to estimate the year of immigration and also to learn the occupation of your relatives. The occupation may help you narrow down the "correct" family member, especially when you are dealing with a common surname.

The city of Marquette has Polk Directories available at the Peter White Public Library, Lydia M. Olson Library (Northern Michigan University), John M. Longyear Research Library at the Marquette Regional History Center.

The Family History Library in Salt Lake City, Utah has copies of most available either in book form or on microfilm. Allen County Public Library in Fort Wayne, Indiana has a large collection of city directories. The Library of Congress located in Washington, D.C. has one of the largest collections of past and present editions. The city directories are available in different formats; paper, microfiche, microfilm and electronic. They are arranged alphabetically by city, not state.

City directories can also serve as a substitute when you cannot locate your ancestors on state or federal census records because of lost or missing images.

Note: Most public libraries subscribe to HeritageQuestOnline and with your valid library card you can access city directories on their website; therefore viewing city directories from the comfort of your home!

UNITED STATES CITIZENSHIP & IMMIGRATION SERVICES (USCIS) RAISES FEES

On 04 May 2016, the Federal Register published a proposed rule to increase various fees for services of the United States Citizenship and Immigration Services (USCIS), including fees for their genealogy services. Below is a chart to show the current and proposed fees relevant to the genealogy services. The fee schedule was last adjusted on 23 November 2010, when Congress created the "Genealogy Program" under USCIS it required that the program be self funded and covers all costs.

In 2010 Department of Homeland Security (DHS) established a genealogy program to reduce delays for these requests. At the time, USCIS averaged over 10,000 requests over four years and USCIS expects the workload to increase to 26,000 a year with the new program. The current genealogy program fees of \$20/\$35 were not established based on the full cost of operating the program. After seven years of operating the operating the program, the DHS now has reliable data to determine the new fees.

G-1041—Genealogy Index Search Request, the current fee is \$20.00 and the proposed fee is \$65.00, an increase of 225%.

G-1041A—Genealogy Records Request (Copy from Microfilm), the current fee is \$20.00 and the proposed fee is \$65.00, an increase of 225%.

G-1041A—Genealogy Records Request (Copy from Textual Record), the current fee is \$35.00 and the proposed fee is \$65.00, an increase of 86%.

SOCIAL SECURITY DEATH INDEX AND WHAT YOU SHOULD KNOW ABOUT IT

- 1) Social Security numbers were first issued in November of 1936.
- 2) The first three numbers indicate where the number was issued. The numbers start low (001) on the east coast and get larger the further west you live. The six remaining numbers are randomly selected.
- 3) Not everyone had/has a social security number.
- 4) You will not find everyone who died between 1962 and March 2014 (see #3).
- 5) The last benefit is not PROOF of residence, nor is it PROOF of death location.
- 6) Just because they are not listed on the Social Security Death Index (SSDI), does not mean they didn't have a social security number, it just means the family did not collect the benefit.
- 7) If you know the social security number you can order copies of their Social Security application (also known as the SS-5) for \$27.00, if you know the number and \$29.00 if you do not..
- 8) The Social Security Administration (SSA) will not provide a copy of the SS-5 about any person who is under 120 years, unless you provide acceptable proof of death; death certificate, obituary, newspaper article, coroner's reports or police reports. Also if you cannot provide the requested information the SSA will redact the parents' names on the application. This restriction is an unfortunate occurrence, when you are trying to learn who are the parents!
- 9) The SSDI does not publish social security numbers on a website until 10 years after the reported death.
- 10) Railroad workers were not required to participate in Social Security and had their own retirement plan. They only include those workers who worked in the rail industry after 1936. Their numbers usually started with "700-728" when this practice was discontinued in 1963.

TEAL LAKE DROWNING

Four persons were drowned yesterday by the upsetting of a small sailboat on Teal Lake, about a mile from this city. The dead are: Miss FLORENCE CRANE, age 18, daughter of HENRY CRANE, who is a traveling man for MORRISON, PLUMMER & Company of Chicago. ROY MITCHELL of Negaunee, Mrs. ORR of Negaunee and GORDON PIPER, youngest son of Capt. PIPER of the Hartford Mine.

The lake is about three miles in length. A thunder storm arose and upset the boat before the sails could be taken down, and all of the occupants with the exception of JOHN ORR were dumped into the water. Mrs. ORR was tangled in the ropes in the boat, but managed to hold on to the boat. She was rescued later, but died before a doctor could be summoned.

MENTAL HEALTH RECORDS IN MICHIGAN

The State of Michigan has maintained facilities for the treatment and care of the mentally ill. The facilities and their opening dates are as follows: Michigan Asylum for the Insane at Kalamazoo in 1859; Eastern Michigan Asylum at Pontiac in 1878; Northern Michigan Asylum at Traverse City in 1885; Michigan Asylum for Insane Criminals at Ionia in 1885; Upper Peninsula Asylum for the Insane at Newberry in 1895; Michigan Home for Feeble-minded and Epileptics at Lapeer in 1895; State Psychopathic Hospital at the University of Michigan in 1906; the Michigan Farm Colony for Epileptics at Caro in 1914; and Ypsilanti State Hospital in 1931. Because the records were created by the institutions and they are often about a person, these records are confidential and cannot be viewed by anyone other than the person listed or by court order.

For more information see: <http://www.michigan.gov/archivesofmi>

DEATHS OF UNITED STATES CITIZENS IN FOREIGN COUNTRIES

Records of civilian deaths from 1789-1974 are held at NARA (National Archives and Records Administration in College Park, MD) and are reported to the United States Consulate serving that particular area. Records from 1975 to present day are held at the Department of State in Washington, DC. It is the consulate that confirms the death and notifies the next of kin. It also provides information regarding final disposition of the remains and their belongings and issues a *Consular Report of a Death of a United States Citizen* so the family can use this as proof of a death and settle the estate. For more information see their website at: <http://www.archives.gov/research/vital-records/american-deaths-overseas/html>

A foreign death certificate is issued in the jurisdiction where the event occurred. The certificate is written in the local language and prepared according to local regulations and laws. It can take many weeks to get a certificate and it may not be accepted to settle an estate.

Deaths to active duty military personnel are reported to the Defense Department in Fort Knox, Kentucky. For more information see their website at: <http://askhrc.army@us.army.mil>

FIVE MAJOR UNITED STATES PORTS OF ENTRY

EXPLORE FOR GOLD

FRANK TREBILCOCK, a mining man of Ishpeming, intends to explore for gold in the territory to the north of that city this summer. He already has found a ledge of the yellow metal and will now learn more of its dimensions and value. Samples brought in by him are of considerable richness, and if there is only enough of that quality of quartz he is unlikely to develop a veritable bonanza. The Ropes gold mine, four miles north of Ishpeming, produced about half a million dollars' worth of gold and a tenth of a million in silver. When work on the vein was discontinued the mine was 800 feet deep, with gold in small quantity still showing in the lowest workings. Had the mine been in the hands of skilled gold miners it might still be in operation and paying a profit.

HAPPY HALLOWEEN

A friend sent me this research request that she received and gave me permission to print it here, provided I change all references to the surnames and location.

"I am looking for my ancestor, Mary BROWN (possible surname may be BRAUN). She is the possible grandaunt of JOSEPH BROWN. I think I found her marriage license and her father was diseased. I know she was diseased before February and I think she is buried in Parkgrove Cemetery." Her husband JOHN SMITH was raised in an orphanage so I know nothing about his ancestors, I would be greatfull for any information you can find on them.
